# Why students said this

## Short-Term

- Increased student engagement.
- Positive feedback from course reps & attendees.
- Preparing for group work collab.

## Long-Term

- Improved graduate employability.
- Stronger university-industry relations.
- More practical learning opportunities embedded in the curriculum.
- Provide opportunities for students to start their own professional networks

# What we did

We called over 120 Course Reps across every school to ask what kind of extra curricular activity they thought their cohort would benefit from the most - here's what we found out.

# What next?

- List of course rep responses by course
- We can help to run some activities if school want us to do.

The background is a dark blue gradient with abstract white line art. It features several interlocking gears of different sizes. Some gears contain question marks, while others contain a spiral. A network of white dots connected by thin lines is overlaid on the scene. Out-of-focus light spots in warm colors like yellow and orange are visible in the background.
